LUMINDORF DVD Version (For Children & Preteens 5 to 13 years)

When he is ten years old he discovers he is a wizard and that he possesses amazing skills and is filled with magic. His story is a wonderful spiritual journey that we can all identify with. As we follow his adventures we discover that the stories reflect our own spiritual journey and point us to a higher use of our own powers. The curriculum uses a variety of stories from the first four Harry Potter DVDs and is designed to assist the students in tapping into the "magic" that exists within them.

Key learning objectives include: Exploring the idea that God is with us through every adventure in our life; Understanding that even if we forget that we are a Divine Child of God, we are never far from the power of Spirit because it is within us; Knowing that the Spirit of God within us is always good no matter what appearances may tell us and Understanding that when we live fully aware of being in the flow of Spirit we can overcome any obstacle because we understand that God is unchanging, all good and everywhere present.
